Personal Profile

A psychology graduate with over four years of experience in the mental health sector, supporting clients in organizations such as Ellern Mede Eating Disorder Hospital and Elsevier. Through this experience, I developed strong communication, leadership, and problem-solving skills while helping individuals improve their wellbeing and quality of life.

My interest in technology began during my psychology degree, where I studied Human Factors – a module focused on how humans interact with technology, including accessibility design and cybersecurity vulnerabilities. This sparked a passion for understanding user behaviour and designing technology that meets real human needs.

I've now completed an 8-week Level 3 Software Development programme, where I gained hands-on experience in programming, software design, and problem-solving using modern development tools. I am eager to begin my career as a junior software engineer, combining my background in psychology and human-centred thinking with my technical skills to create innovative, accessible, and user-focused digital solutions that make a meaningful impact.

Key Skills

Technical Skills:

- **Programming languages:** Proficient in HTML5, CSS3, JavaScript, MySQL and C#.
- **Web development:** Skilled in building responsive front-end interfaces using HTML5, CSS3, and JavaScript frameworks.
- **Version control:** Experienced with Git and GitHub for collaborative development, version tracking, and code management.
- **Database management:** Understanding of SQL and basic database design for storing and managing data effectively.
- **Software Development Lifecycle (SDLC):** Familiar with Agile methodologies, debugging, testing, and deployment processes.
- **Problem-Solving:** Strong analytical and logical thinking skills developed through coding challenges and project-based learning.

Soft Skills:

- **Communication:** Strong written and verbal skills; experienced in research findings and collaborating across diverse teams.
- **Teamwork:** Proven ability to work effectively within cross-functional teams in academic, healthcare, and tech environments.
- **Project management:** Familiar with Agile Principles, project lifecycles, risk management, and tools like Gantt charts and risk registers.
- **Adaptability:** Quick to learn and apply new skills across digital marketing, research, and software development projects.
- **Creativity:** Innovative thinker with experience designing engaging content and designing websites.
- **Leadership:** Experience managing funds and membership engagement as treasurer and planning workshops as project assistant.

Training and Education

Just IT Training Ltd, London

Digital Skills Bootcamp: Software Development

09/2025 – 11/2025

An eight-week intensive bootcamp covering the fundamentals of Software Development.

- Development of HTML
- Introduction to HTML/JavaScript/CSS
- Developed a web-based product
- Database design
- Built projects using HTML5, CSS3 and JavaScript.

Just IT Training Ltd, London

09/2024 – 09/2024

Digital Marketing Course

- Learnt the principles and methodologies of project management and how they can be applied to real life projects.
- Learnt about the different stages of project lifecycles and how to efficiently complete each stage.
- Learnt how to access and manage risk and issues that may arise before, during and after completing a project.
- Learnt and practiced using tools like Gantt charts and risk registers to analyse dependencies and assess the impact and probability of risk levels on the current project.
- Designed website pages for products.

Cardiff University, BSc in Psychology

09/2021 – 07/2025

Core Modules:

- Human factor, Decision Making, Behavioural intervention.

Final Year Project:

- *The Effect of Injunctive and Rational Message on Recycling Sorting Behaviour:* My project studied and observed student behaviours in Cardiff University. Students were presented with posters that had either an injunctive or rational message style on the wall next to be bin. I observed whether either message styles promoted students to place the correct recycling products (e.g. paper) in the correct recycling bin (e.g. paper recycling bin)

Haringey Sixth Form College, London

09/2018 – 07/2020

BTEC:

- Extended Diploma in Applied Science Grade: D*D*D*

Ifako International Secondary School, Lagos, Nigeria.

09/2011 – 07/2017

GCSE:

- Maths (5), English (5).

WAEC (equivalent to GCSE):

- Data processing (B2), Chemistry (B2), Physics (B3), Biology(B3)

Employment History

Project Assistant, Ty Seren

04/2023 – 09/2025

- Created and supervised fun activities like art projects, cooking, etc with residents.
- Provided support and advice to residents to improve their personal growth and development.
- Designed posters for events.

Placement Student, Dyfodol

10/2023 – 06/2024

- Created and managed person-tailored treatment plan for service users struggling with drug or alcohol addiction.
- Supported and advised service users on how to manage their mental well-being to prevent or reduce reliance on drugs or alcohol.
- Organised breakfast club every Friday to improve the relationship between service users and support manager.

- Practiced psychosocial intervention like motivational interviewing with clients to understand substance misuse triggers.

Community and Communication Summer Intern, Elsevier

07/2023 – 09/2023

- Created and designed a SharePoint page to improve the communication within the technology team in Elsevier.
- Formulated interview questions to learn about staff's welfare while working remotely.
- Conducted interviews to enquire about staff's work life balance and improvement the company can make to improve staff wellbeing and development.

Student, Cardiff University

2021 - 2025

- Analysed fMRI data and research data using SPM and SPSS.
- Collaborated on a report project with team of 4 other student, transcribed an audio file, carried out a thematic analysis and produced a booklet for research on the effect of infertility on women using a drawing out method.
- Collaborated with a team of 4 other student on a quantitative report, analysed the data using a one-way ANOVA and a mixed design ANOVA. Performed a correlation analysis to observe the relationship between the independent variable and dependent variable.
- Successfully recruited participants through opportunistic sampling for a group research project.

Treasurer, African Caribbean Society, Cardiff University

2022-2023

- Managed the society's fund to ensure that money is spent wisely.
- Created membership benefits plans with my team members to retain current members of the society and to bring in new members.

Healthcare assistant, Ellern Mede Eating Disorder Hospital

05/2021 – 05/2023.

- Effectively resolved disagreement between patients by providing advice to both persons involved in the disagreement.
- Provided support and advice to patients especially when they are distressed and struggling with self-harm.
- Facilitated group games with patients which helped to promote peace and unity among patients and elevate their mood.
- Treated all patient equally to prevent discrimination and favouritism which could lead to dis-unity on the ward.

Interests, Hobbies and Achievements

- Most connected award in my class year 2018-2019- Haringey Sixth form College.
- Best employee award- KFC 2020.
- **Content Creation:** I create and edit fashion videos which I post to provide people with ideas on what to wear for different occasions.
